SURVEY LEVEL CODEBOOK

DATE March 2021

American Jewish Population Project

at

Steinhardt Social Research Institute
Brandeis University

Principal Investigator: Leonard Saxe

Co-Principal Investigator: Elizabeth Tighe

Co-Principal Investigator: Raquel Magidin de Kramer

Co-Principal Investigator: Daniel Parmer

Research Analysts: Daniel Kallista

                               Daniel Nussbaum

Survey Level Variables

This document contains a list of all variables to be coded from data documentation and extracted/original data files for merging into the main meta-analysis master file. For all variables, the following common set of missing values apply:

-994	**Missing: Not in survey**
-995	**Other Missing/NA**
-996	**DK/REF**
-997	**DK**
-998	**REF**
-999	**Unspecified/No Label**

Survey ID Variables:

ExtractID   Extract ID Number - Key Variable

[NOTE: This should match the extract ID for the individual level data extract.]

MISSING   THERE SHOULD BE NO MISSING VALUES

SurveyTitle   Enter the full title of the survey.

SampleMeth   Select the sample type from the dropdown menu. Options in the menu correspond to those in the "Sample Type" Access table.

Values

-1	Mixed Method
0	Landline
0.9	Combined Sample
1	Face-to-face interview
2	Cell Phone
3	Web-based survey
4	Fed-Only List
5	Multi-Organizational List
6	DJN Sample
7	Mailed Survey
8	Matched Random Sampling

Methodology:

Done By   Enter name or initials from dropdown menu. Names and initials correspond to those in the "Meta Team" Access table.

Shop   Select the Survey Shop that administered the survey from the dropdown menu. Options correspond to those in the "Shop" Access table. **Note**: in some cases, there are multiple options that pertain to a single shop (i.e. Princeton Data Source)—be sure to choose the option that most closely matches the shop description in the survey methodology.

Values

---

mxmeth   If the survey used mixed methods, select the method types from the dropdown menu. If the survey did not use mixed methods, select "Not Mixed Method". Options correspond to those in the "Mixed Method" Access table.

Values

0   Not Mixed Method
1   Cell-Landline
2   RDD-FTF
3   RSel-Y/O Fem
4   RDD/Web-based
5   FTF/Web-based
6   RDD Mixed Sample

MISSING   THERE SHOULD BE NO MISSING VALUES

---

mxmethinc   Flag whether or not the survey used mixed methods. **Note**: if the sample size is too small, one of the mixed-method samples may be dropped.

Values

0   Mixed-Method Not Included

1   Mixed-Method Included

MISSING   THERE SHOULD BE NO MISSING VALUES

---

adminsd   Input the start date (Day/Month/Year) of survey administration. **Note**: If this information is not found in the documentation, it may be extrapolated from the data.

Values

Varies (dd/mm/yyyy)

MISSING   -994

---

admined   Input the end date (Day/Month/Year) of survey administration. **Note**: If this information is not found in the documentation, it may be extrapolated from the data.

Values

Varies (dd/mm/yyyy)

MISSING   -994

---

syear   Enter the 4-digit year of survey administration. **Note**: some surveys might span multiple years; this survey level variable should indicate the year the majority of data was collected.

Values

1997 – Present

MISSING   THERE SHOULD BE NO MISSING VALUES

---

admincat   Input the method of administration for the survey sample. This should be consistent with *SampleMeth* and is not the same as *mxmeth*.

Values

-1   Mixed (mail & phone)
0   Telephone (Landline)
1   Face-to-Face
2   Cell phone
3   WebTV/PC

4	Telephone/Mailed Survey

Sampmeth   Select the sampling method from the dropdown menu. Options correspond to those in the "Sampmeth" Access table. **Note**: the options "Standard RDD" and "RDD unspecified" are equivalent. Please use "RDD unspecified" in these cases so as to be consistent with the most recent coding.

Values

1	Standard RDD
2	RDD unspecified
3	List-assisted RDD
4	Multi-Stage Area Probability
5	Cell-Phone dedicated blocks
6	List-assisted RDD + agree to TV/internet & limit of # surveys per month
7	RDD with geo strata

5	Miscellaneous

---

purprel   Flag for survey purpose: Religion.

Values

0	Purp: Not Religion
1	Purp: Religion

---

purppol   Flag for survey purpose: Politics.

0　Purp: Not Politics
1　Purp: Politics

---

purphage　Flag for survey purpose: Health & Aging.

Values

0　Purp: Not Health & Aging
1　Purp: Health & Aging

---

purpsocm　Flag for survey purpose: Social Life, Miscellaneous.

Values

0　Purp: Not Other Social
1　Purp: Social & Miscellaneous

_____

incentives　Select the option that best describes the incentive used for the survey sample. If the sample did not include an incentive, select "No Incentive". **Note**: if the documentation of incentives is not described in the methodology, check the questionnaire and dataset.

Values

0	No Incentive
5	$5 Incentive
10	$10 Incentive
11	$20 Incentive
12	$25 Incentive
13	$40 Incentive
50	$50 Incentive
1050	$10-$50
1055	Cash-Unspecified Amount
1075	$10-75+ Incentive
2030	$20-$30
2040	$20-$40
2050	$20-$50
3000	Free Web Access
5505	$5 Cell phone Reimbursement
5605	Sample split between $5 and $5 cell phone reimbursement
80010	RDD got $0, Oversample got $10, Oversample got $10
80020	Only recontacts offered $20
80030	Incentive points for web-based survey
80031	$10/survey plus additional $25 for all four
80032	Two part survey: 1st $25/$50/$75/$100/$125

80033   Advance Letter $2 incentive; non-contact additional letter $2 incentive

80034   Incentive test: 60% offered $5; 40% not offered

MISSING   -994   Missing: Not in Survey

---

rsel   Select the respondent selection method from the dropdown menu.

<u>Values</u>

1   Kish
2   Troholdahl-Carter
3   Hagan-Collier (random selection of yng ml, yngfem, oldml, oldfem)
5   Random Adult
6   Random First or Last Birthday
7   Last Birthday
8   Youngest Male/Oldest Female
9   Youngest Male/Youngest Female
10 Person who answers the phone
11 Random unspecified
12 Youngest male/youngest female proportional selection
13 Stratified systematic sampling (Knowledge Network method probably similar to Kish)
14 Mix of youngest/oldest, middle depending on how many adults in household
15 Randomized Youngest Male/Youngest Female
16 Youngest Adult
17 Mix of youngest/oldest, middle, or next/last birthday depending on how many adults in household
18 Next Birthday
19 Adult male/adult female
20 Head of household
21 Age-order

MISSING   -994   Missing: Not in Survey

---

anygeosr   Flag whether or not any geographical variables were self-reported. This should be included in the survey questionnaire.

        0   No self-reported geo vars in survey
        1   Self-reported geo vars included in survey

Religion Question:

Relqtxt   Copy and paste the text of the religion ID question from the questionnaire.

rlqtoe   Flag for Religion ID question text: Open-Ended

Question text is open-ended when no choices for religious affiliation are explicitly stated.

Values

        0   Relid Q: Not Open-Ended
        1   Relid Q: Open-Ended
   -999   Missing: Unspecified

rlqtrp   Flag for Religion ID question text: Close-Ended, Religion Primed

Religion is primed when question text includes reference to identifying with a religious group, e.g., "What is your religion is it …" vs "Are you group1, group2, ….". What is your religion, what is your religious preference – any mention of identifying by religion and not simply by group name.

Values

        0   Relid Q: Not closed-ended with religion primed
        1   Relid Q: Closed-ended with religion primed
   -999   Missing: Unspecified

rlqtnp   Flag for Religion ID question text: Close-Ended, Religion Not Primed

Religion is not primed when the question text does NOT include reference to identifying by religion, but instead just states specific groups, e.g., "Do you consider yourself Protestant, Catholic, Jewish, etc…"

Values

        0   Relid Q: Not closed-ended with no religion primed
        1   Relid Q: Closed-ended with no religion primed
   -999   Missing: Unspecified

hrelothq   Flag for Religion ID question text: Specific "Something Else/Other" option

Question text includes specific "Something Else" or "Other" option.

Values

    0   No "Other" option listed
    1   "Other" option listed
-999   Missing: Unspecified

---

hmultrelq   Flag for Religion ID question text: Multiple options other than "Protestant, Catholic, Jewish" listed

Question text includes multiple religion options beyond Protestant, Catholic, and Jewish.

Values

    0   Multiple options not listed
    1   Multiple options listed
-999   Missing: Unspecified

---

numothrelq   Religion ID question text: Input number of total options listed in text

Total number of options listed in text of the religious ID question. Include Protestant, Catholic, and Jewish in the total.

Values

Numeric (##)
-999   Missing: Unspecified

---

hmormonq   Flag for Religion ID question text: Mormon listed

Question text includes "Mormon" as an option.

Values

    0   Mormon not listed
    1   Mormon listed
-999   Missing: Unspecified

---

ldsflag   Flag for Religion ID question text: Flags LDS, not just general "Mormon"

Question text distinguishes "Mormon" from "LDS (Church of Latter Day Saints)"

Values

    0   Does not include LDS
    1   Includes LDS
-999   Missing: Unspecified

ldsmormsep   Flag for Religion ID question text: Includes distinct categories to separate LDS from Mormon

Question text distinguishes "Mormon" from "LDS (Church of Latter Day Saints)"

<u>Values</u>

    0   Does not include LDS separate from Mormon
    1   Includes LDS separate from Mormon
 -999   Missing: Unspecified

---

hmuslimq   Flag for Religion ID question text: Muslim listed

Question text includes "Muslim" as an option

<u>Values</u>

    0   Muslim not listed
    1   Muslim listed
 -999   Missing: Unspecified

---

hbuddhistq   Flag for Religion ID question text: Buddhist listed

Question text includes "Buddhist" as an option.

<u>Values</u>

    0   Buddhist not listed
    1   Buddhist listed
 -999   Missing: Unspecified

---

hrelnoneq   Flag for Religion ID question text: Contains ANY No Religion options listed

Question text includes any expression of no religion, such as: "No religion", "None", "Atheist", "Agnostic" or "No Preference" option.

<u>Values</u>

    0   "No religion" options not listed
    1   "No religion" options listed
 -999   Missing: Unspecified

---

hnpq   Flag for Religion ID question text: No preference or 'none' option listed

Question text includes "No preference" or "None" or "Nothing in Particular" as options.

Values

0	"No preference" option not listed
1	"No preference" option listed
-999	Missing: Unspecified

---

hagnq   Flag for Religion ID question text: Atheist listed

Question text includes "Atheist" as an option

Values

0	Atheist not listed
1	Atheist listed
-999	Missing: Unspecified

---

hnonprmq   Flag for Religion ID question text: Agnostic listed

Question text includes "Agnostic" as an option

Values

0	Agnostic not listed
1	Agnostic listed
-999	Missing: Unspecified

---

hnonprmg   Flag for Religion ID question text: Primes for No Religion

FOR OPEN-ENDED QUESTIONS ONLY! Question text primes for ability to say 'nothing' or 'none' - for open-ended questions only; for example, "What, if anything, is your religion?" would be coded as 1 and "What is your religion?" would be coded as 0.

Values

0	Does not prime no religion
1	Primes no religion
-999	Missing: Unspecified

Weighting Information:

wttype   Select the type of weight from the dropdown menu. Options correspond to those in the "Weight Type" Access table. **Note**: all variables for weighting information should be coded with respect to the weight that corresponds to the extract's sample; if there is only one given weight, the variables should be coded identically across samples.

Values

0	Design only
1	Non-response only
2	Post-stratification only
3	Design and Non-response
4	Design and Post-Stratification
5	Design, Non-response, and Post-stratification

---

wtage   Input the number of categories used for weighting on age, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted on age
#	Number of age categories
99	Weighted on age, but # of categories unspecified

---

wtsex   Input the number of categories used for weighting on sex, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted on sex
2	Weighted on sex

---

wtraceth   Input the number of categories used for weighting on race/ethnicity, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted on race/ethnicity
#	Number of race/ethnicity categories
99	Weighted on race/ethnicity, but # of categories unspecified

---

wtedu   Input the number of categories used for weighting on education, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted on education
#	Number of education categories
99	Weighted on education, but # of categories unspecified

---

wtsxa   Input the number of categories used for weighting on sex by age, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted on sex by age
#	Number of sex by age categories
99	Weighted on sex by age, but # of categories unspecified

---

wtsxe   Input the number of categories used for weighting on sex by education, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

0	Not weighted on sex by education
#	Number of sex by education categories
99	Weighted on sex by education, but # of categories is unspecified

---

wtaxe   Input the number of categories used for weighting on age by education, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted on age by education
#	Number of age by education categories
99	Weighted on age by education, but # of categories is unspecified

---

wtgeo   If applicable, select the option from the dropdown menu that best describes how the sample was weighted by geography. If the sample was not weighted by geography, select "Not weighted by geogray". Options correspond to those in the "wtgeo" Access table.

Values

0	Not weighted by geogray
1	Census Region (4 categories)
2	Census Region X Metro Status (8 categories)
3	Census Region X PSU/MSA type (12 categories)
4	Census Division (9 categories)
5	Survey Specific Communities
-994	Not in survey
6	Canadian Region

---

wtpopden   Input the number of categories used for weighting on population density, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted by population density
1	Number of pop density Categories
99	Weighted on population density, but # of categories unspecified

---

wtphone   Input the number of categories used for weighting on phone usage, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted by phone usage
#	Number of phone usage categories
99	Weighted by phone usage, but # of categories is unspecified

---

wtempl   Input the number of categories used for weighting on employment status, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

Values

0	Not weighted by employment status

#	Number of employment status categories
99	Weighted by employment status, but # of employment categories is unspecified

_____

wtnumad Input the number of categories used for weighting on number of adults in household, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

<u>Values</u>

0	Not weighted by number of adults in the household
#	Number of adults in household categories
99	Weighted by number of adults in household, but # of categories is unspecified

_____

wtmar Input the number of categories used for weighting on marital status, if any. **Note**: the number of categories is often displayed in a table in the survey methodology.

<u>Values</u>

0	Not weighted by marital status
#	Number of marital status categories
99	Weighted by marital status, but # of marital status categories is unspecified

_____

wtothtxt Describe any other weighting features not captured by prior variables.

<u>Values</u>

0	No other weighting factors
TXT	Text describing the factor and the number of categories if present and available

_____

wtpstsrc Select the post-stratification source from the dropdown menu. Options correspond to those in the "wtpstsrc" Access table.

<u>Values</u>

1	March CPS/ASEC
2	ACS
4	Census
5	Marketing Systems Group
6	GSS and RLS
7	Not in survey
8	Statistics Canada
9	ACS/Census/NHIS combo

_____

Wtpstyr Input the four-digit post-stratification source year.

<u>Values</u>

####	4 digit year
8888	Most Recent
9999	Unspecified

_____

wtdessrc Select the design weight data source from the dropdown menu. Options correspond to those in the "wtdessrc" Access table.

	1	Jan-Jun NHIS
	2	Jul-Dec NHIS
	3	NHIS Month Unspecified

---

wtdesyr   Input the four-digit design weight data source year.

Values

	####	4 digit year
	8888	Most Recent
	9999	Unspecified

---

wtpdnsrc   Select the population density source from the dropdown menu. Options correspond to those in the "wtpdnsrc" Access table.

Values

	1	Census 2000
	2	Census 2010
	3	Unspecified

---

anyosmp   Flag whether or not there is an oversample. If there is an oversample, it should be included in both the dataset and documentation.

Values

	0	No
	1	Yes

---

ostyptxt   Describe the oversample. If none, input -994.

Values

	-994	No applicable
	TXT	Description of type of oversample

---

wtvartxt   Input the case sensitive name of the weight variable in the dataset.

Values

	TXT	Name of the weight variable.

Response Rate:

tsamp   Input the total sample size. **Note**: Total sample size may be found in documentation or by running a FREQ command using the original or extracted datafile.

    Note 2: If mxmeth EQ 1 and mxmethinc EQ 0 the total sample size will be determined by the included sample only. This can be found by running a TEMP SELECT IF command to select the included sample only. Then run a FREQ command on sample size.

vrrel   Input the total # of valid responses to the religion question. **Note**: Valid responses to religion question will not likely be found in documentation. Run a FREQ command on the variable using the extracted datafile or by locating the variable (under a different name) in the original file and then subtract the DK/REF cases from the valid responses.

    Note 2: If mxmeth EQ 1 and mxmethinc EQ 0 vrrel will be determined by the included sample only. This can be found by running a TEMP SELECT IF command to select the included sample only. Then run a FREQ command on the religion variable and subtract the DK/REF cases from the valid responses.

jsamp   Input the total number of Jewish respondents (based on religion variable). **Note**: Valid responses to jsamp will not likely be found in documentation. Run a FREQ command on relid using the extracted datafile or by locating the variable (under a different name) in the original file.

    Note 2: If mxmeth EQ 1 and mxmethinc EQ 0 jsamp will be determined by the included sample only. This can be found by running a TEMP SELECT IF command to select the included sample only. Then run a FREQ command on relid variable.

dispav   Flag whether or not the survey dispositions were included in the documentation.

Values

    0 Disposition Info Not Provided
    1   Disposition Info Provided
    2   Dispositions

    MISSING   -995   Not Applicable
                  -999   Unspecified

Notes/Source

stdyrres   Input the reported response rate.

Values

    Numeric (##.#)

MISSING   -999   Unspecified

---

rrtest   Input the response rate calculated using AAPOR calculator: estimated from survey dispositions or reported.

<u>Values</u>

Numeric (##.#)

MISSING   -999   Unspecified

Complete?   Check box: check for yes, blank for no.
